How do people Learn?

आचार्यात् पादमादते
पादं शिष्यः स्वमेधया ।
पादं सब्रह्मचारिभ्यः
पादं कालक्रमेण च ॥

You learn 25% from your Guru

You learn 25% on your own

You learn 25% from your classmates

And the balance you will learn with the passage of time

A grid of participant thumbnails in a video conference interface. The grid is 4 columns by 6 rows. The participants are labeled as follows:

- Row 1: RV (yellow), VT (purple)
- Row 2: GV (yellow), PS (orange)
- Row 3: KD (white), (green icon)
- Row 4: (black icon), (black icon)
- Row 5: SM (yellow)
- Row 6: (black icon)

A small video feed of two men is also visible in the bottom right corner of the grid area.

23-09-2024

Program Composition:

Training: Virtual Instructor Led Training Program

LMS: Access to content and Assignments/Quiz

Attendance: Compulsory for all class

Reading Material: Pre-reads and Post-reads

Evaluation:

- Assessments: Weekly/Module Completion
- Assignments : Daily
- Quiz – Daily during the sessions

Capstone Project

Grading Scheme	
Attendance and Participation	10%
Toll gates/Module completion (MCQ/Quiz)	50%
Capstone Project	40%

Qualitative Assessment and Feedback	
Communication	Strength
Engagement	Areas of Improvement
Technical	Learnability

Expectation from Participants

Actively participate
in the program

Attend the ILT
session and clear
your doubts

Practice, practice &
practice.. That's the only
way to attain perfection

Avoid unethical practices
while participating in
case studies and
assessments

Timely completion
of the program

Support your
peers

Important things to be noted before joining the Webinar Session

- Please use Microsoft Teams on the web browser or Windows App for joining the webinar session.
- Participants are advised to Login at least 15 minutes before the Webinar session start time as this will give them enough buffer time to troubleshoot, if there are any issues with the system or tool.
- Please keep an earphone/headphone with you as you will be required to interact during the session.
- Participants are required to be seated in a location where they can comfortably attend the session without background disturbances and surrounding loud noises. Please ensure enough lighting is present in the said location.
- Participants are expected to be well-groomed and neatly dressed. Formal / Semi-Formal attire is recommended.

Illustration: How is EMI on Loan Calculated?

Formula for EMI Calculation is -

$$P \times R \times (1+R)^N / [(1+R)^N-1]$$

where-

P = Principal loan amount

N = Loan tenure in months

R = Monthly interest rate

The rate of interest (R) on your loan is calculated per month.

R = Annual Rate of interest/12/100

Title : For Login No Password Is Required.

Attach Add a child issue Link issue ...

Complexity level Priority 1

TA Oct 10, 2024

Description

Description: When attempting to access Facebook, the system does not prompt for a password and allows direct access to the account, raising significant security concerns.

Steps to Reproduce:

1. Open Google Chrome.
2. Navigate to [Facebook - log in or sign up](#).
3. Click on the Facebook login page.
4. Observe that the system automatically logs in without prompting for a password.

Expected Result: The user should be required to enter the account password to log in.

Actual Result: No password is requested; the user is automatically logged in.

How to test

IT is the description where we will do testing based on the input.

Example:

SBI internetbanking login?

1. To check whether UI looks to good or not.
2. Enter the correct username, correct pwd, correct captcha and click on login button.
3. Enter the correct username, correct pwd, incorrect captcha and click on the login button
4. Enter the correct un, incorrect pwd, correct cpatah and click on the login button.
5. Enter the correct un, incorrect pwd, incorrect catch
6. Enter the incorrect un, correct pwd, correct cpatch
7. Enter the incorrect un, incorrect pwd, correct cpath
8. Enter correct un, correct pwd, blank captcha.
9. Enter correct un, blank pwd, correct catch
6. Enter blank un, correct pwd, correct cpatch
7. Enter the incorrect un, incorrect pwd, correct cpath
8. Enter correct un, correct pwd, blank captcha.

CRM Sales

Features & Functionalities

Customer 360

- Functionality to search customer basis Key Parameters
- Single view of customer with demographic details and interaction across all channel

Calendar Meetings
(Activities/Triumph/Regulator (T+7))

- Enabler for capturing connects, customer meeting
- Provision for updation of status of meeting
- Supervisory Review

Sales Governance

- Supervisory Review - Level 1 review at an activity level covering the 360 degree customer view as well
- Cross Functional Review - Detailed review between the different teams along with the KRA data parameters
- SMS to customer

Lead capturing and routing

- Workflow defined for capturing leads - Bulk / by users / from channels
- Auto assignment of leads
- Status updation of leads

Offers review and upgradation

- View of offer mapped to customer
- View of offer for mapped customer
- Provision upgradation and online lead creation

Reports/Dashboard

- Reports on key activities carried out in CRM - Lead / Activities/Offer upgradation
- Report for self / drill down for supervisors

Axis Internet Banking - Start banking Online

Key Features:

- **Account Management**
 - Check balances
 - View transaction history
- **Fund Transfers**
 - NEFT, RTGS, IMPS
- **Bill Payments**
 - Utility bills
 - Mobile recharges
- **Investments**
 - Mutual funds
 - Fixed deposits
 - Recurring deposits
- **Loans and Credit Cards**
 - Apply for loans
 - Manage credit cards
- **Security**
 - User ID/ Pwd
 - Device fingerprinting (Security Q&A)
 - OTP verification

The screenshot shows two views of the Axis Bank Internet Banking website. The top view displays the login page with fields for 'User ID' and 'Password'. The bottom view shows the main dashboard with sections for 'BALANCES', 'TRANSACTIONS', 'MORTGAGE', 'INVESTMENTS', and 'PAY NOW'. A notification at the bottom right says 'Review with Harshit Sir (In-person) Microsoft Teams Meeting 8:21 minutes'.

Whatsapp Banking - Convenient banking at your fingertips

How to Get Started

- **Initiate Chat:** Send "Hi" to 7036165000 on WhatsApp.
- **24/7 Availability:** Access services anytime, anywhere.
- **Security:** End-to-end encryption ensures secure transactions.

Key Features:

- **Account Information**
 - Check account balance
 - View mini statements
- **Fund Transfers**
 - Transfer funds easily
 - Manage transactions
- **Credit and Debit Cards**
 - Get credit card summaries
 - Manage card limits
 - Block/unblock cards
- **Fixed Deposits**
 - Book and renew fixed deposits
- **Customer Support**
 - Get answers to queries
 - Locate nearest branch or ATM

Axis AHA! - Your virtual banking assistant for instant support

How to Get Started

- Accessing Axis AHA!**: Visit Axis Bank's homepage and click on the Axis AHA icon.
- Interaction**: Use text or voice to interact with the chatbot.

Key Features:

- Instant Access**
 - Available directly on Axis Bank's homepage
 - No additional apps required
- 24/7 Availability**
 - Assistance available round the clock
- Multi-language Support**
 - Available in English and Hindi
- Banking Services**
 - Fund transfers
 - Bill payments and recharges
 - Manage card limits, block/unblock cards
- Information Repository**
 - Access information on Axis Bank products and services
- Customer Support**
 - Connect to customer service portal
 - Chat with a customer service executive

31°C Haze ENG 14-10-2024 15:07

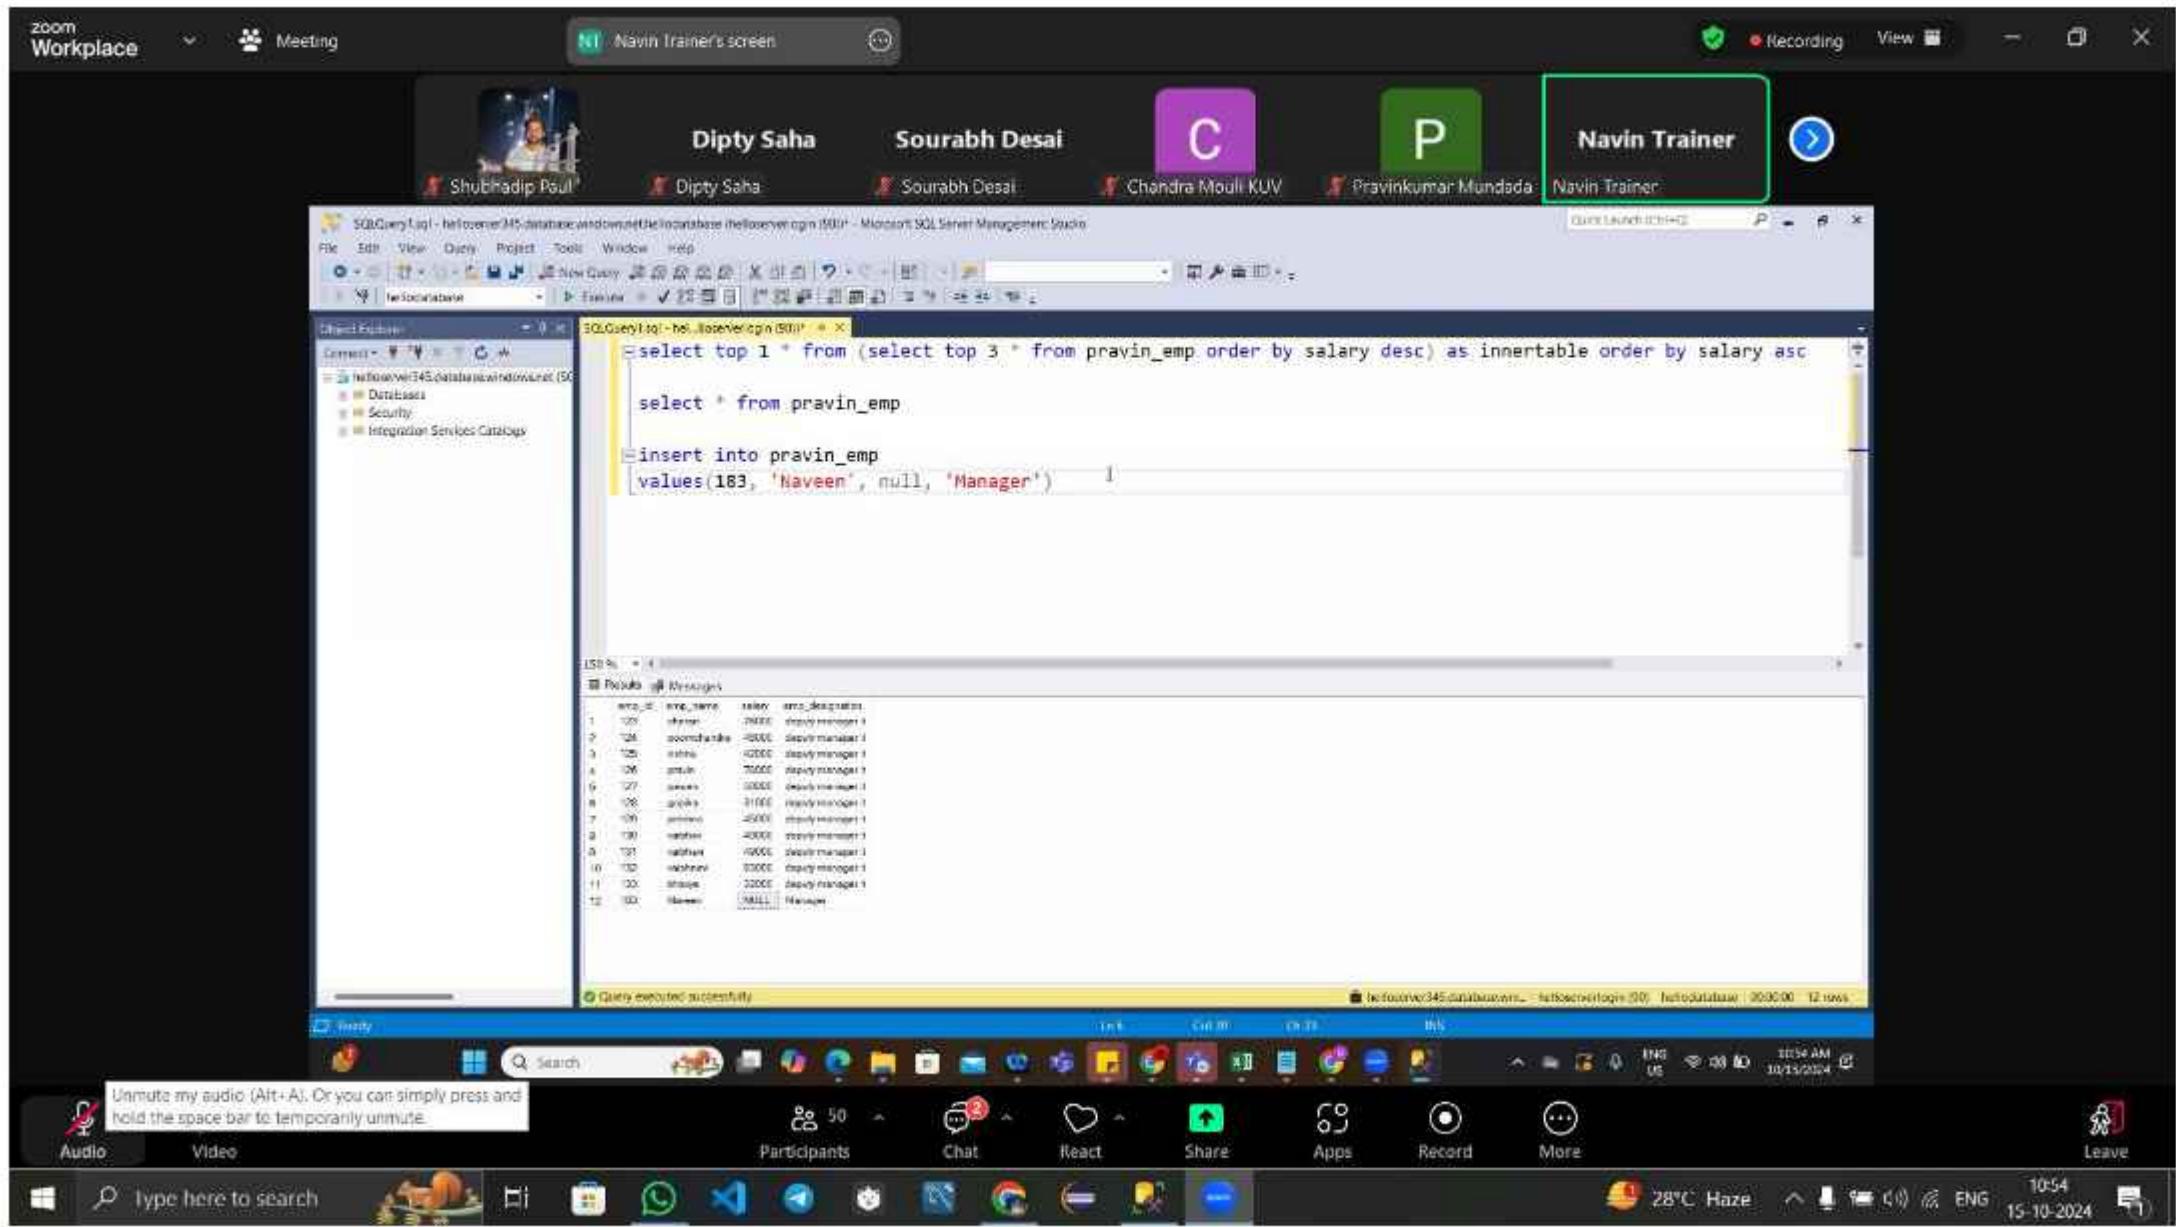

Navin Trainer

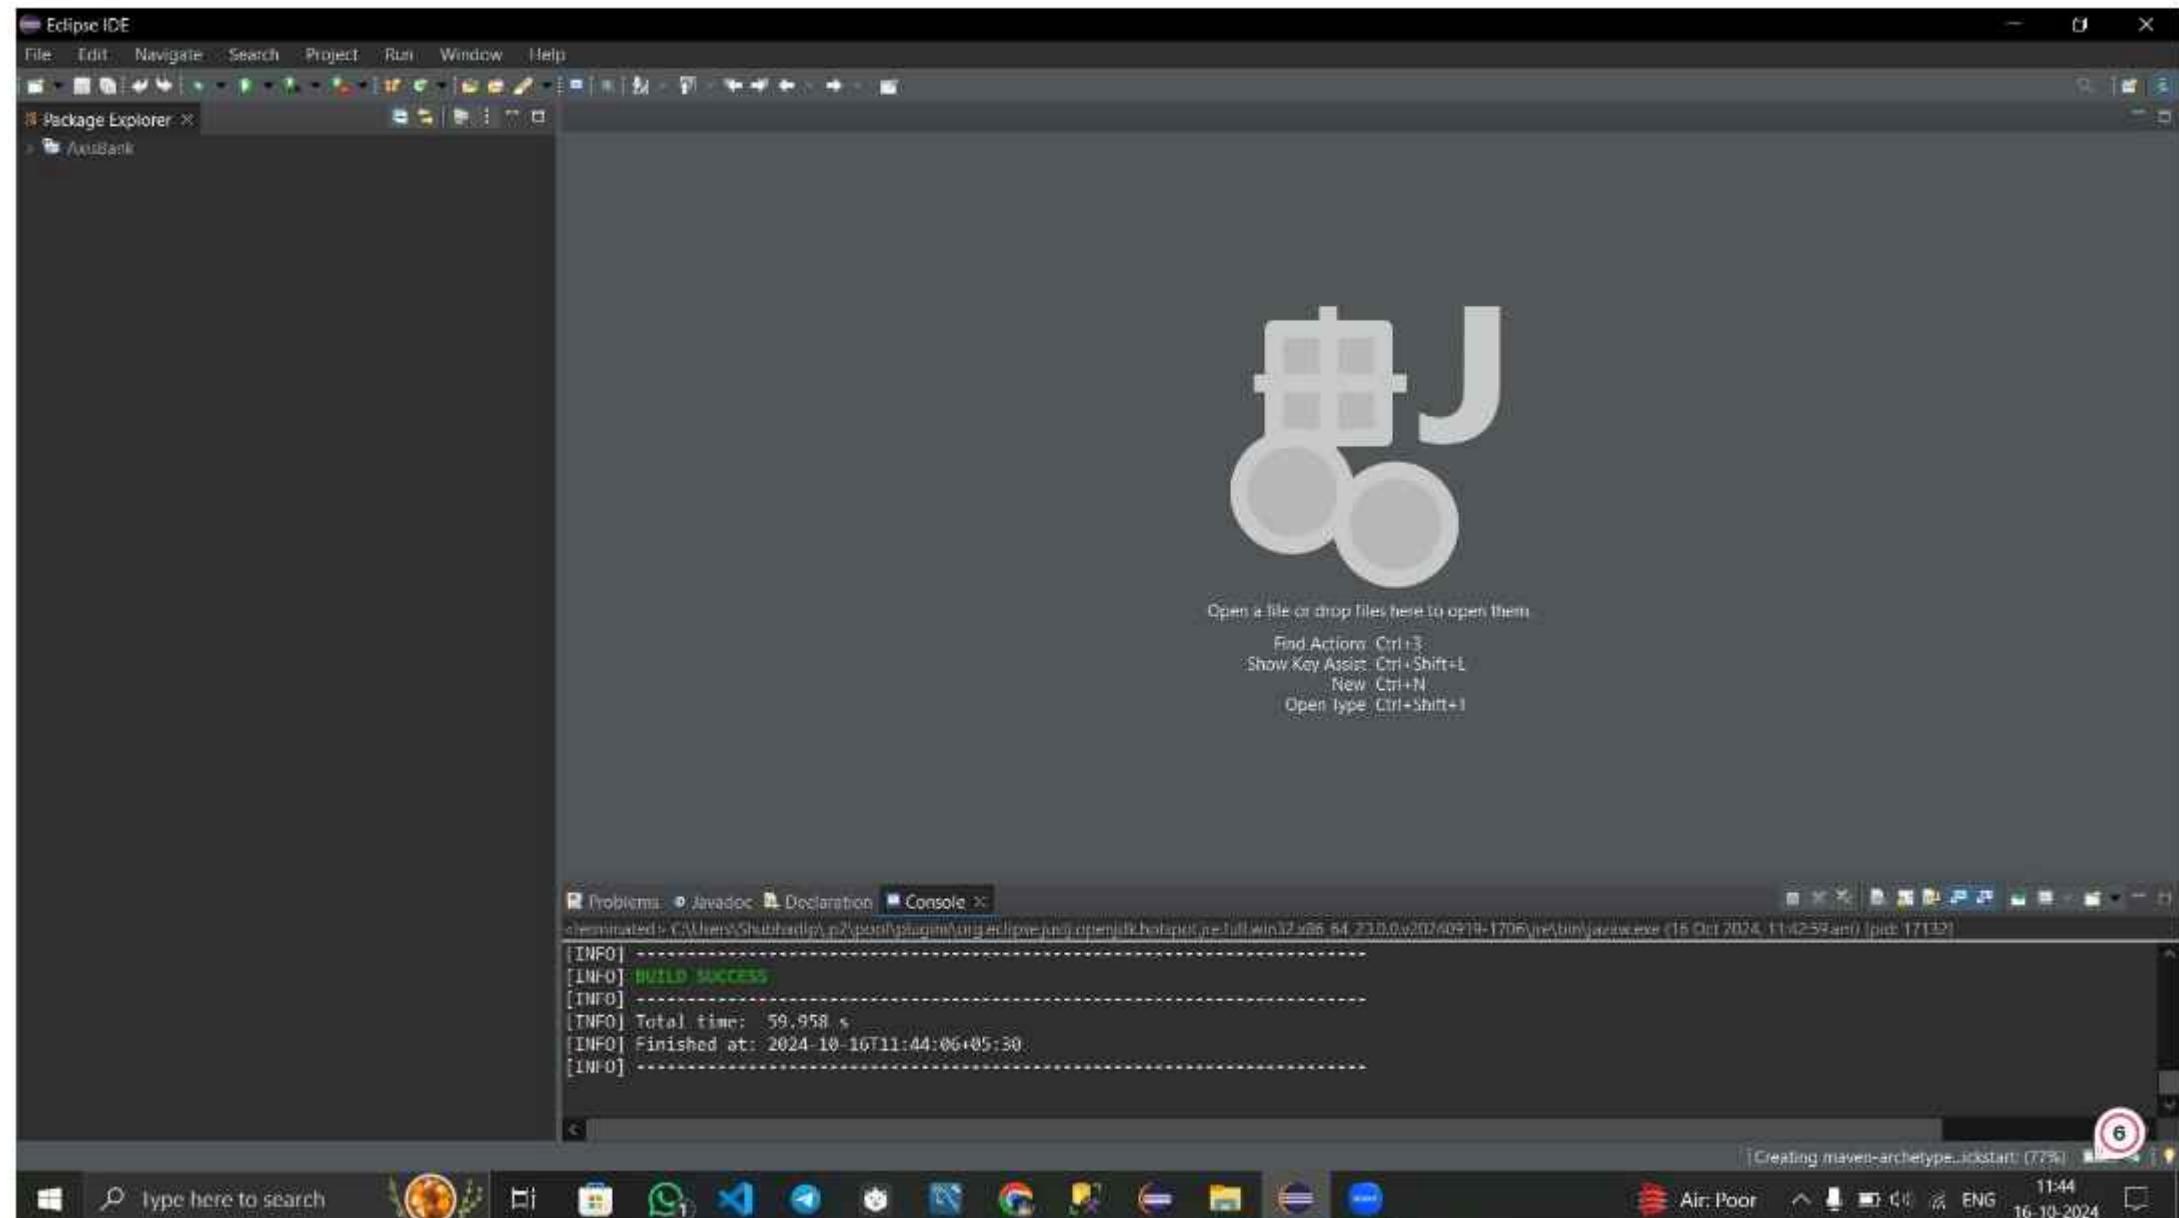

The screenshot shows a dual-tasking environment. On the left, a Zoom video conference interface is visible, titled 'Workplace'. It displays three participants: 'Abhipsha Sahoo', 'Sushma Chilam...', and 'Shubhadeep Paul'. The participant 'Shubhadeep Paul' is shown in a larger video preview. The Zoom interface includes standard controls for audio, video, participants, chat, and leave.

On the right, an instance of Microsoft SQL Server Management Studio (SSMS) is open. The title bar reads 'SHUBHADIP_EMPLOYEE.sql - helloserver345.database.windows.net.helldatabase (hel...)' and 'Quick Launch (Ctrl + O)'. The SSMS window contains several panes:

- Object Explorer:** Shows the database structure under 'helloserver345.database.windows.net'. The 'Tables' node is expanded, listing numerous tables such as 'dbo.Abhipsha_Employee', 'dbo.Ajay', 'dbo.chakradhar', 'dbo.dev', 'dbo.employee', 'dbo.employee1', 'dbo.pawan_employee', 'dbo.Poornachandra_empl', 'dbo.preeti_Employee', 'dbo.Priyanka_employee', 'dbo.rutuja_employee', 'dbo.sourabh_emp', 'dbo.suyog_employee', 'dbo.swapnilkhose_employee', 'dbo.Uday_employee', 'dbo.Vaibhavi_Employee', 'dbo.Vaishnavi_Muley_Emp', and 'Dropped Ledger Tables'.
- SQL Editor:** Contains T-SQL code for inserting data into the 'SHUBHADIP_EMPLOYEE1' table. The code includes a SELECT statement and an INSERT INTO statement with 15 rows of data. The data includes columns like 'EmployeeID', 'Name', 'Salary', and 'Role'. The last row is highlighted in red.
- Messages:** Displays a single message indicating a column mismatch error: 'Msg 213, Level 16, State 1, Line 9 Column name or number of supplied values does not match table definition.'
- Status Bar:** Shows the completion time as 'Completion time: 2024-10-14T14:35:38.6845059+05:30'.
- Taskbar:** At the bottom, the taskbar shows the Windows Start button, a search bar with 'type here to search', and various pinned icons including File Explorer, Task View, Mail, and Edge. The system tray shows the date and time as '14-10-2024' and the weather as '30°C Haze'.

Enterprise Function - BSG I Summary

AXIS BANK

Role of Control Function

To manage various risks across various businesses, products, processes, the Bank has 'three lines of defense' risk governance model.

- The first line of defense is the line management / Business Units - **Functions that own & manage risks**
- Second lines of defense are the Compliance function, Risk and other Control functions- **Functions that oversee risks**
- Internal Audit is the third line of defense. -**Functions that oversee risks**

Focus Areas for Project Execution

- Understanding the Regulatory requirement for the project
- Understanding the Business requirement
- Suggest sustainable/scalable solution based on four eye principal which meets the regulatory requirement.
- Timely Delivery

Key activities handled

- Business Requirement Documentation
- Functional Specification Documentation (FSD) Review
- Functional User Acceptance Testing (UAT)
- New systems evaluation and finalization in partnership with IT process

Systems used

• Power App/Share Point	• COSMOS
• CAMS	• DTM
• STAR	• RAMP
• LENS	• OAMFRMS
• FALCON	• Clari5

SFDC Bharat Banking

AXIS BANK

Name of the project	Description
SFDC Implementation for Bharat Banking	<p>Leveraging SFDC platform to achieve Scalability, Architecture consolidation, and enabling business process improvements for Loan Origination journeys for Bharat Banking Core asset journeys.</p> <p>First two products in consideration:</p> <ol style="list-style-type: none"> Farm equipments – New Tractor and Used Tractor Refinancing Nano Enterprise Loan – Secured & Unsecured

The architecture diagram illustrates the flow of data and interactions between various stakeholders and systems. At the top, three main entities are connected to a central engagement layer: Customers, FOS (Frontline Sales), and DSA, Dealers, Partners. The engagement layer consists of two main components: Customer Interaction and Query Resolution Dashboard. Below this layer, the system is divided into functional areas: LOS (SFDC) on the left, and FI, FCU, Underwriting, External Workflows, Query Management, and Disbursement & Fulfilment (OPs) on the right. These functional areas interact with each other and with the engagement layer. At the bottom, various external systems are integrated: Core, CRM (CRM Net/SFDC), BRE (Blaze), LMS (FinnOne), and DocMgmt (S3/ OmniDoc). The diagram also includes a legend for Customer Interaction, Systems of Engagement, and Query Resolution & Dashboard, along with icons representing different components like a rocket, a person, and a document.

Customer Interaction

- KYC
- Income Assessment
- Consent
- Doc signing
- E-Nach, E Frisking
- Customer Declared Information (application form)

Systems of Engagement

- DSA Partner - Web - Saathi - Channel Partner Application
- FoS / Branch - Bank App - Intune App - Siddhi
- Customer Interaction - Web - Maxima
- Query Resolution & Dashboard - SFDC

Query Resolution & Dashboard

- My Application Stats
- Team App Stats
- Respond to UV query
- Submit Docs

Core

Shubhadip Paul Abhipsha Sahoo Vaibhavi Kale Vishnu Verdhan Kandu... Navin Trainer Navin Trainer Bomachandra Swami

Participants need to work on below activities:
Pre-req: Participants should have IRCTC account.
Activities:
1. High level scenarios for testing logging into the irctc website.
2. Detailed test cases with steps in test case format for validating login.
3. Give one RTM(Requirement traceability metrics) format

Case study2:
Participants need to check on below:
They have to see all the possible scenario for axis bank home page:
<https://www.axisbank.com/>

Case Study3:
Create an SQL table for AxisBank_customer and perform below activities:
1. Add the below mentioned attribute and add records for 20 customers:
customer_id, customerName, credit_limit, applicable, cvv, expiry_date, kycstatus.
2. Write the query for below:
-- Get the all data for the customer which has KYC status verified?
3. What is the average Balance limit for state (particular) state from the table?
4. What is the top 5th balance customer of having highest bank balance.
5. Calculate the balance who is done with KYC.
6. Calculate the balance who is not done with KYC.
7. Calculate the number of customer whose credit card/debit card is going to expire within 3 months.
8. Display the name of customer who has credit_limit more than 45000.
9. Display name of customer, who has expiry date after 2025 and having credit limit > 50000.
10. Retrieve the name of the customer who has lowest account balance amount.

What is Wholesale banking?

WB-BSG

- Corporate banking (also referred as Wholesale banking) refers to the banking services that are provided by a bank to large businesses and corporations
 - It is specialized area of banking that focuses on meeting the financial needs of corporate clients including companies, partnerships, and government entities with high value transactions and complex financial needs.
 - Corporate banking services can include lending, trade finance, cash management, foreign exchange and other financial solutions that are tailored to meet the unique needs of corporate clients.
 - The primary objective of the corporate banking is to provide financial solutions that help businesses manage their cash flow reduce risk and grow their operations

Fund Based

Cash Credit

A type of revolving credit facility that allows a business to borrow funds up to certain limit. Cash credit is ideal for the business that have a fluctuating cash flow needs

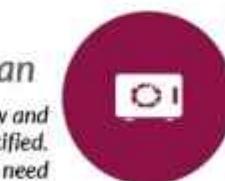

Over Draft

OD allows the business to overdraw its current account up to a certain limit. This facility is useful for managing short term cash flow needs such as paying for an unexpected expenses

Term Loan

TL is a fixed amount of credit that a business can borrow and must repay over a specified. With interest this facility is suitable for businesses that need one time lump sum of money for long term investments such as purchasing of property or equipment's

Non-Fund Based

Letter of Credit

It is a letter from a bank guaranteeing that a buyer's payment to a seller will be received on time and for the correct amount. If the buyer is unable to make a payment on the purchase, the bank will be required to cover the full or remaining amount of the purchase.

Bank Guarantee

A bank guarantee is a promise by a financial institution to meet the liabilities of a business or individual if they don't fulfill their obligations in a contractual transaction.

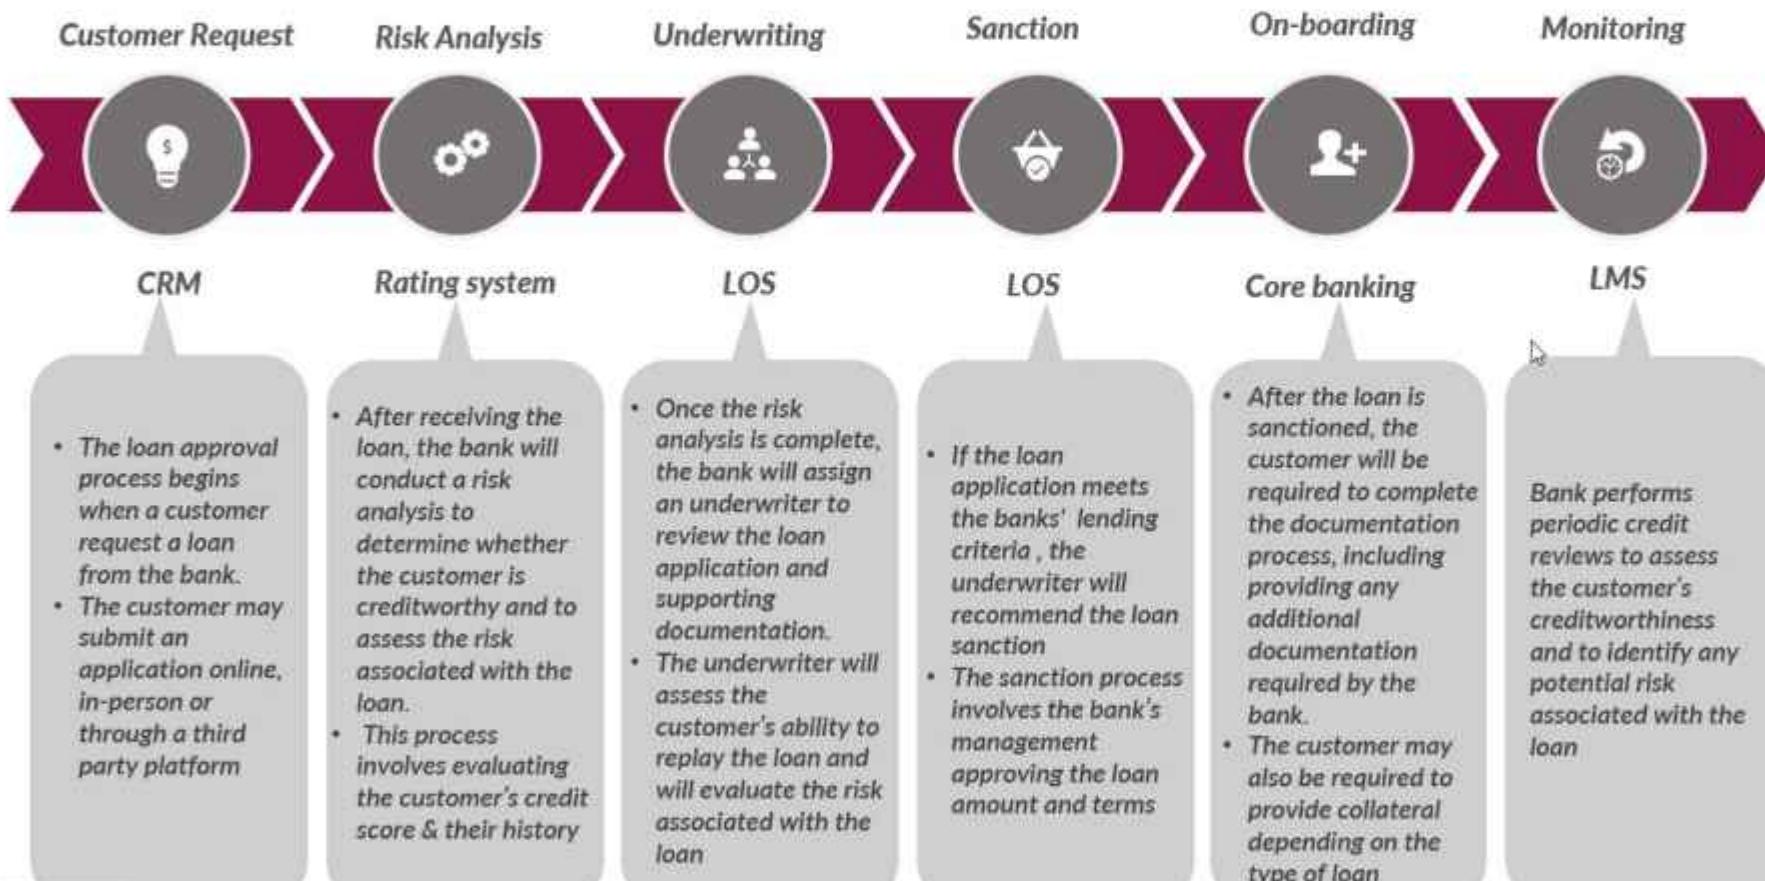

Bill Discounting

Bill discounting allows a business to obtain funds by selling its unpaid bills to a bank at discount.

Case Study3:

Create an SQL table for AxisBank_customer and perform below activities:

1. Add the below mentioned attribute and add records for 20 customers:
customer_id, customerName, credit_limit, applicable, cvv, expiry_date,kycstatus.
2. Write the query for below:
-- Get the all data for the customer which has KYC status verified?
3. What is the average Balance limit for state (particular) state from the table?
4. What is the top 5th balance customer of having highest bank balance.
5. Calculate the balance who is done with KYC.
6. Calculate the balance who is not done with KYC.
7. Calculate the number of customer whose credit card/debit card is going to expire within 3 months.
8. Display the name of customer who has credit_limit more than 45000.
9. Display name of customer, who has expiry date after 2025 and having credit limit > 50000.
10. Retrieve the name of the customer who has lowest account balance amount.

Testing Centre of Excellence (TCoE) & Governance - Overview

Business Solutions Group

Oct 21, 2024

Shashank Deshpande +

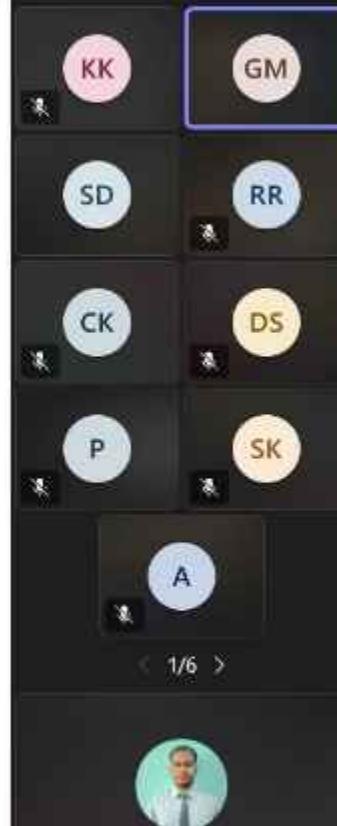

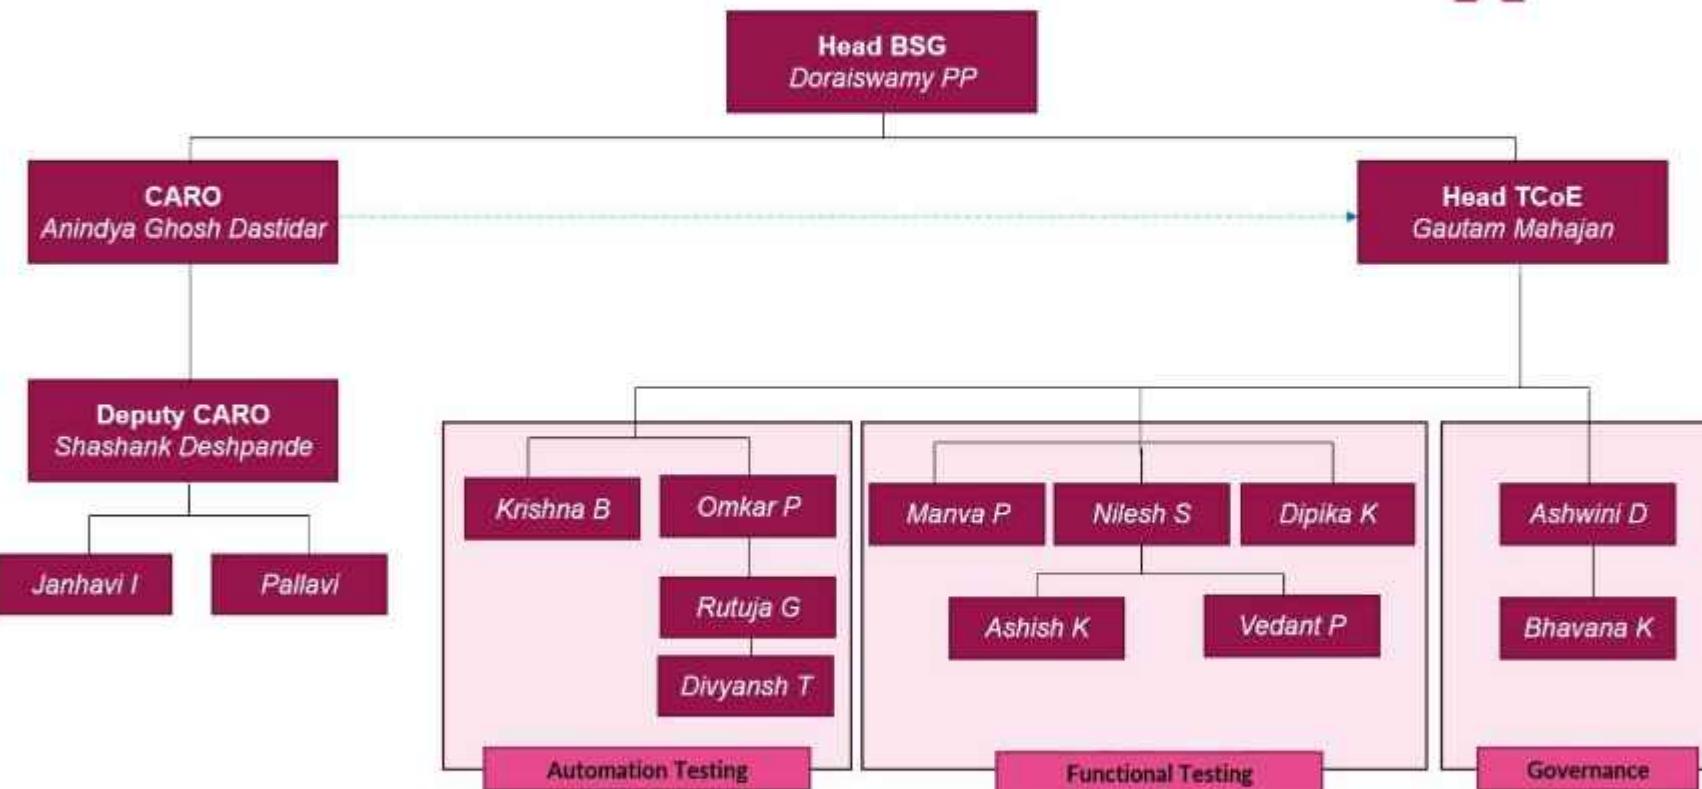

type here to search

15:07
21-10-2024

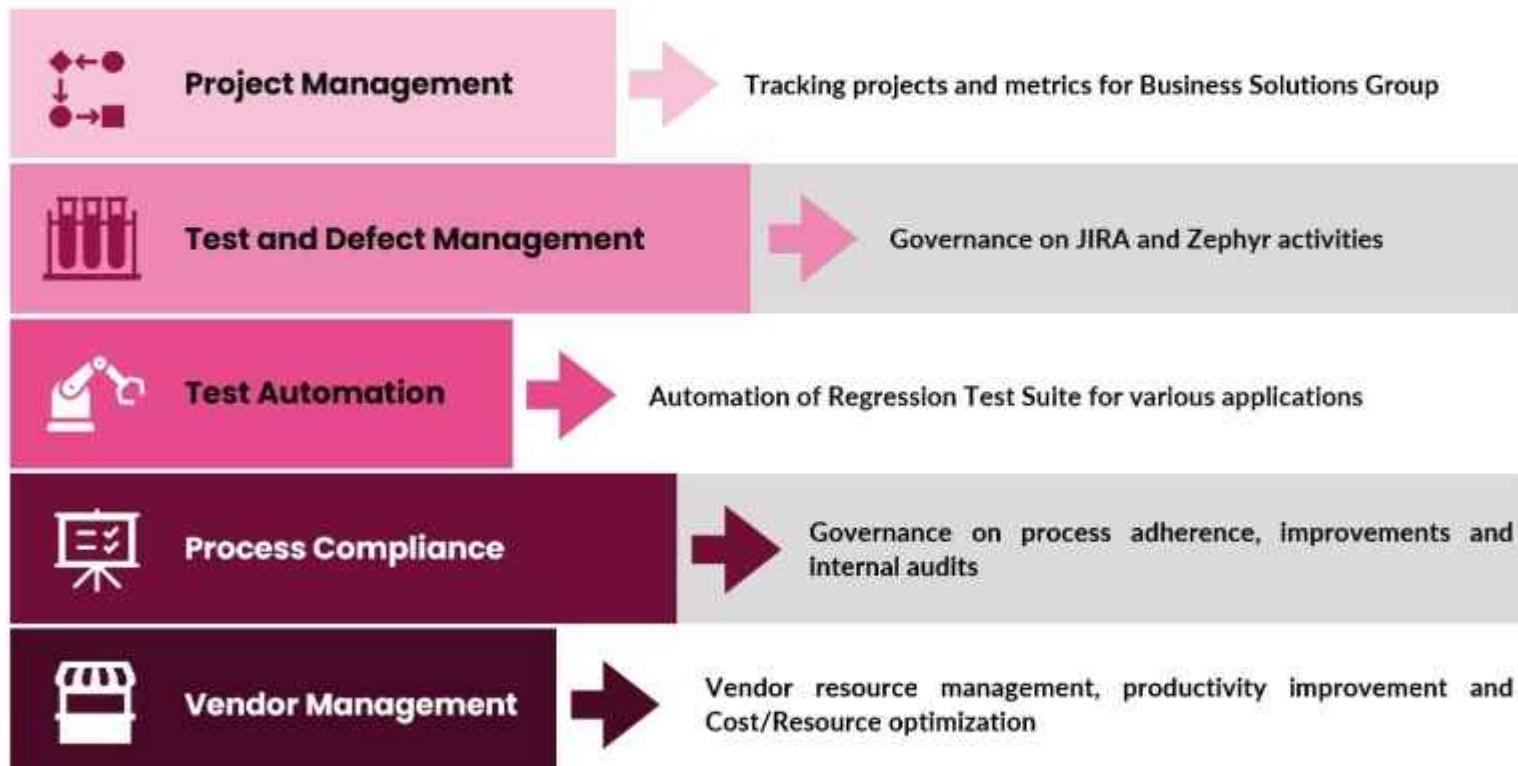

BSG | TCoE & Governance Team Structure

TCoE - Testing Centre of Excellence
CARO - Compliance and Risk Officer
Shashank Deshpande

Axis Bank Document Classification | Confidential 2

BSG | Testing Centre of Excellence

BSG | TCoE | Project and Test Management

Tracking and Monitoring

- JIRA Zephyr implemented at Enterprise level
- All projects (New implementation, enhancements, regulatory, defect fixes) across BSG being tracked in JIRA

Test and Defect Management

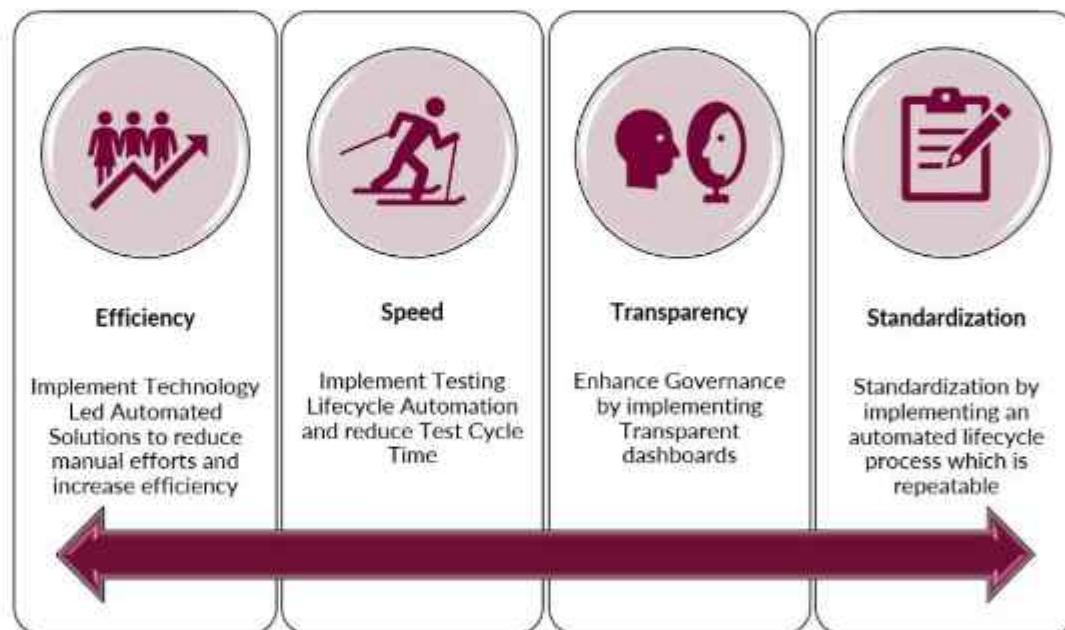

- Process definition, setting of workflow and adherence
- Regular Trainings conducted for users
- Published User Manuals for ready reference

Dashboards

- Vertical and app level dashboards available for better visualization of metrics
- Role based dashboards available across all verticals

BSG | TCoE | Automation

BSG | CARO Portfolio

Risk

Ensuring timely tracking and closure of RAR and RMP points

Audit

Ensuring timely tracking and closure of the audit points raised in internal and external audits

Compliance

Complying to the rules and regulations set by government agencies and regulatory bodies and reporting to management in a timely manner

Resourcing & Budgeting

Outsourced and internal resource management and budget management for BSG

RAR – Risk Assessment Report
RMP – Risk Mitigation Plan

BSG | Risk & Control Self Assessment (RCSA) Framework

BRD Coverage

- VP and above from BSG provides signoff (Checker) for all BRDs
- Signoff approval from VP and above from relevant stakeholders (Business/Product/Ops Team) is taken

Requirement Coverage

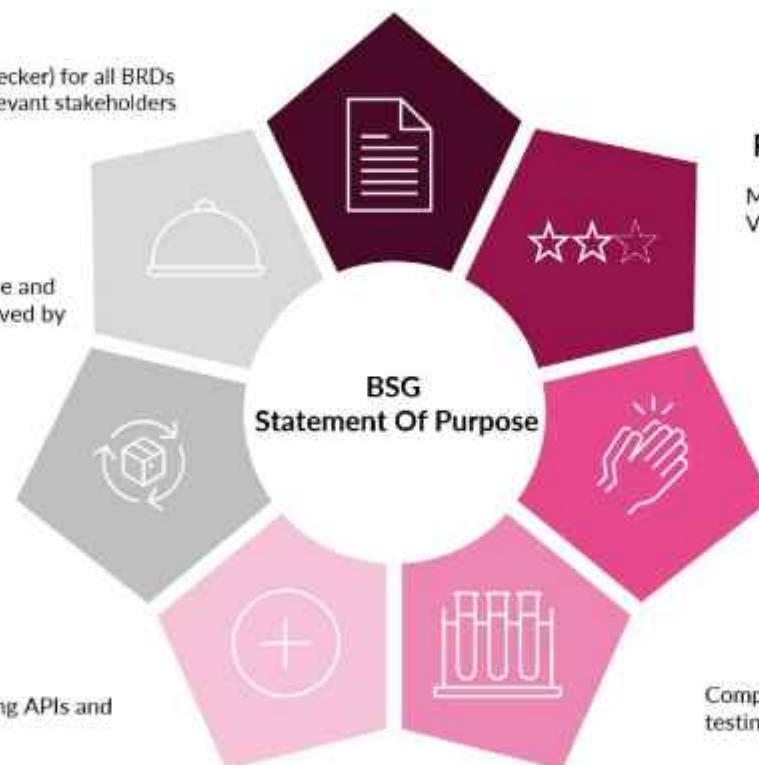

Comprehensive Test cases covering both positive and negative flows are created, Reviewed and approved by BSG (VP & above)

Lifecycle Coverage

Test cases covering both positive and negative flows are created for the upstream/downstream applications

API Testing

Mandatory Testing of new/existing APIs and services basis new workflow

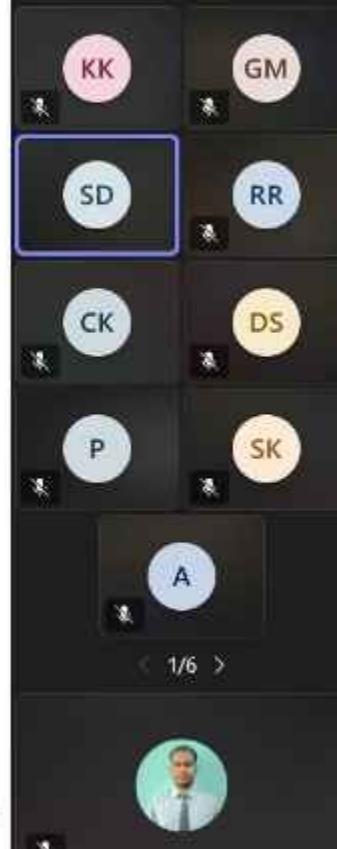

Review Mechanism

Monthly review by BSG head and Vertical heads

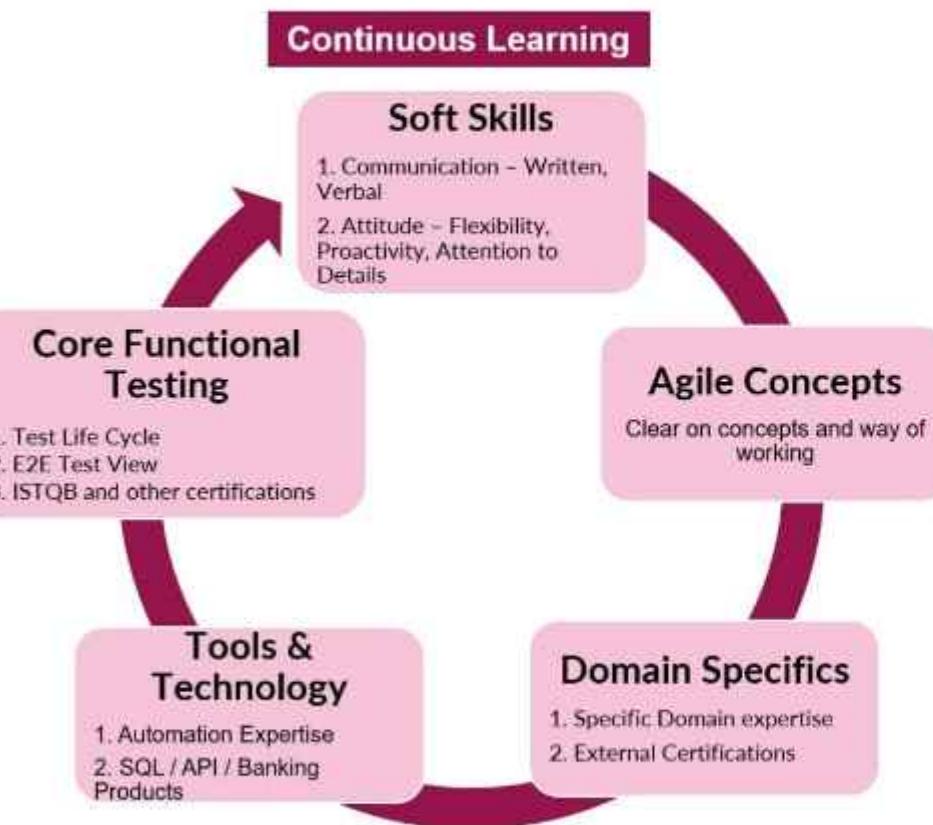

CMC/PMC Approval

BSG SVP1 & above review and sign off all CMC/PMC

CMC- Change Management Committee
PMC- Project Management Committee

BSG | Essential Skills

Ready Reckoner

- Axis bank website offers information on products, services and channels
- It is recommended to go through Axis bank website in depth

This screenshot shows a Zoom meeting interface. The main window displays a presentation slide with text and a code block. The slide includes sections like 'Installation:' and a list of Selenium methods. A sidebar on the right lists participants with their names and profile pictures. The bottom navigation bar shows various meeting controls like audio, video, and sharing options.

The screenshot shows a Zoom meeting interface. At the top, there are tabs for 'Workplace' and 'Meeting'. A participant named 'Naveen Trainer's screen' is currently sharing their screen. The recording status is shown as 'Recording'. The main content area displays a slide with text about Selenium installation and a list of WebDriver methods. To the right of the slide, a participant list is visible, showing five participants: Shubhadip Paul, Pawan Mane, Pawan Mane, Vishnu Vardhan Kandadi, and Suyog Waghare. Suyog Waghare is highlighted with a green border. The bottom of the screen shows the Windows taskbar with various pinned icons and the system tray.

The screenshot shows a Zoom meeting interface. On the left, there is a presentation slide with a green header containing the title 'Naveen Trainer's screen'. The slide content includes a list of items and a section titled 'Installation:' followed by a dashed line. Below this, it says 'Selenium will have only two things' and underlines 'selenium webdriver'. Another dashed line follows. To the right of the slide, there is a participant list. It shows five participants: Shubhadip Paul (image), Pawan Mane (image), Pawan Mane (image), Vishnu Vardhan Kandadi (image), and Suyog Waghare (image). The participant 'Suyog Waghare' is highlighted with a red border around their name and profile picture. At the bottom of the slide, there is some status information: 'L6/1221, Col/56 28,983 characters' and a toolbar with various icons. The bottom of the screen shows the Zoom control bar with buttons for Audio, Video, Participants (52), Chat, React, Share, Apps, Record, More, and Leave.

Shubhadip Paul Abhipsha Sahoo Mudhitha Madi... Suyog Waghare Navin Trainer Chakradhar Kan...

Selenium will have only two things to do with installation
selenium webdriver

Thread.sleep: IT is just for waiting for some w/o any reason/condition

Implicit wait: Implicit wait is a wait which is used in selenium to ask the webdriver to wait for certain amount of time before it throws a "No such element exception"

Example: If we have declare around 10 seconds, it mean that your webdriver will wait for 10 seconds to load the elment of page, if they got it then good otherwise they can throw the error only after 10 seconds.

Syntax:
driver.manage().timeout().implicitlywiat(TimeOut,TimeUnit.seconds)

Case study1:

Participants need to work on below activities:
Pre-req: Participants should have IRCTC account.
Activities:

1. High level scenarios for testing logging into the irctc website.
2. Detailed test cases with steps in test case format for validating login.
3. Give one RTM(Requirement traceability metrics) format

Case study2:
Participants need to check on below:
They have to see all the possible scenario for axis bank home page:
<https://www.axisbank.com/>

Case Study3:
Create an SQL table for AxisBank customer and perform below activities:
1. Add the below mentioned attribute and add records for 20 customers:
customer_id, customerName, credit_limit, applicable_cvv, expiri_date, kycstatus.
2. Write the query for below:
-- Get the all data for the customer which has KYC ststus verified?
3. What is the average Balance limit for state (particular) state from the table?
4. What is the top 5th balance customer of having highest bank balance.
5. Calculate the balance who is done with KYC.
6. Calculate the balance who is not done with KYC.
7. Calculate the number of customer whose credit card/debit card is going to expire within 3 months.
8. Display the name of customer who has credit limit more than 45000.

The screenshot shows a Jira issue page for ABZ-1. On the left, there's a sidebar with project navigation like 'Axis Bank' and 'Sprint 1'. The main area has sections for 'Environment' (Web browsers), 'Linked issues' (ABZ-2), and 'Confluence content' (Product requirements). A modal window is open over the issue details, showing 'ABZ-2' with its title, status (To do, Medium), and a detailed description. Below it is a 'Test Cases' section with a card for 'ABZ-T1'. At the bottom, there's a comment input field and a success message about creating 'ABZ-2'. On the right, a pinned fields panel is open, showing 'Assignee' as pinned. The 'Details' panel on the far right lists fields like Assignee (Unassigned), Labels (Frontend), Parent (None), Team (None), Development, and Reporter (SP SHUBHADIP PAUL). A purple bar highlights the pinned 'Assignee' field.

Title: The Users are unable to join with valid login credentials.

+ Add @ Apps

Description

Title: Unable to log in with valid credentials on Rediff Mail

ID: BUG-01

Reported By: Shubhadip Paul

Date: 05.11.2024

Steps to Reproduce:

1. Navigate to the Rediff Mail login page.
2. Enter a valid email address in the "Email" field.
3. Enter a valid password in the "Password" field.
4. Click the "Sign In" button.
5. Observe that the login attempt fails, and the user remains on the login page without any error message or redirection.

Expected Result:
The user should be successfully logged in and redirected to their inbox.

Actual Result:
Login fails without an error message or any redirection, and the user remains on the login page.

The screenshot shows the Jira Agile board for the 'DTAB' project. The board has three columns: 'TO DO', 'IN PROGRESS', and 'DONE'. The 'TO DO' column contains two tasks, both represented by a blue cylinder icon with a magnifying glass and a checkmark. The top task is titled 'Axis Bank Customer Database testing And Handling.' and has a sub-task 'Database' under it. The sub-task has an issue key 'DTAB-1' and is assigned to 'MM'. The bottom task is also titled 'Axis Bank Customer Database testing And Handling.' and has a sub-task 'Database' under it. The sub-task has an issue key 'DTAB-1' and is assigned to 'MM'. The 'IN PROGRESS' and 'DONE' columns are currently empty. At the top of the page, there is a navigation bar with links for 'Your work', 'Projects', 'Filters', 'Dashboards', 'Teams', 'Plans', 'Assets', 'Apps', 'Create', and a search bar. On the far right, there are icons for notifications, help, settings, and a user profile. The left sidebar includes sections for 'PLANNING' (Timeline, Board, List, Add view), 'DEVELOPMENT' (Code, Project pages, Zephyr Scale, Project settings), and 'Archived issues'.

Description

Dear Mansi Santosh Mahale,

I hope this message finds you well.

I am reaching out to assign you a task involving the execution of test cases related to "Axis Banks Database Testing" processes. This work is essential for maintaining our quality assurance standards and ensuring seamless functionality across our systems. Here are the details and guidelines:

Task Overview:

Objective: To execute and validate test cases based on Axis Bank's standards.

You have to manage and insert the "Records for 20 customers".

Tools Needed: Jira Software Tool, Microsoft SQL Server Access.

Expected Outcome: Successful completion of the operation with documentation of results and any identified issues.

Description

Dear Middela Sathvika,

I hope this message finds you well.

I am reaching out to assign you a task involving the execution of test cases related to "Axis Bank's Database Testing" processes. This work is essential for maintaining our quality assurance standards and ensuring seamless functionality across our systems. Here are the details and guidelines:

Task Overview:

Objective: To execute and validate test cases based on Axis Bank's standards.

SQL Queries: Develop and execute SQL queries to:

- Retrieve all customers with verified KYC status.
- Calculate balances for customers who have completed KYC.

This screenshot shows the Jira Agile board for the project 'Database Testing Of Axis Bank'. The board has three columns: TO DO, IN PROGRESS, and DONE. There are two tasks in the DONE column, each represented by a blue cylinder icon with a red number '1' indicating they are the first task assigned to the respective team members. The first task is titled 'Axis Bank Customer Database testing And Handling.' and is associated with the database 'DTAB-I' and team member 'MM'. The second task is also for 'Axis Bank Customer Database' and is associated with 'DTAB-I' and 'MM'. The sidebar on the left provides navigation links for planning, development, and project management. The bottom status bar shows system information like weather, time, and date.

zoom Workplace Meeting NAVIN TRAINER's screen Recording View Axis Bank -QA Session - online New messages NAVIN TRAINER to Everyone 10:24 CKNAVIN1009/AxisBank

The screenshot shows a Zoom meeting interface. In the top bar, there are icons for Workplace, Meeting, and Recording. The title bar says "NAVIN TRAINER's screen". On the right, there's a message box from "NAVIN TRAINER" to "Everyone" at 10:24, with the message "CKNAVIN1009/AxisBank".

The main content area displays a presentation slide. The slide has a green header bar with the text "NAVIN TRAINER" and "Sushma Chilam... Prerona Banerjee". Below the header, there are four small profile pictures: Shuchadip Paul, Abhipsha Sahoo, Sushma Chilamakurti, and Prerona Banerjee. A large green button with a white "P" is on the right.

The slide content includes:

- TFS: Team foundation server
- Test rail
- HP ALM
- Zephyr
- etc
